How does it work?

The ChelseaClip is a specially designed Nylon hook from which a bag, or other small item of personal luggage, can be suspended by its own strap. The item is easily placed onto the clip but two hands are required for its removal, making 'handbag snatching' and quick theft virtually impossible.

Since the Chelsea Clip's launch, it has made its way into national eating and drinking establishments as well as featuring on buses and coaches, ferries and aircraft. You may even see it in changing cubicles in shops and sports facilities.

Product Features:

- Injection moulded nylon hook
- Permanently fixed using double-sided adhesive pads or screws (also both supplied), using the two integral countersunk holes.
- Recommended by the Police to prevent handbag theft
- Keeps customers' bags off the floor and safely out of the way
